

This architectural floor plan depicts the 3rd floor of a building, characterized by a large, open rectangular hall and a central corridor system. The plan is defined by a grid of lines, with horizontal grid lines labeled 1 through 24 and vertical grid lines labeled A through G. Key features include:

- Central Corridor:** A prominent vertical corridor runs through the center of the floor, containing multiple elevators (labeled XI-1, XI-13, XI-14, XI-15, XI-16, XI-10) and a staircase (LT3). This corridor is flanked by service rooms such as elevators (电梯机房) and water storage rooms (水箱间).
- Main Hall:** The large open spaces on either side of the corridor are designated as "Roof" (屋面) with a slope of 1.51/m and an elevation of 23.600. These areas are divided into sections by diagonal lines.
- Service Rooms:** Various rooms are located along the perimeter and within the central corridor, including:
 - Water Storage Rooms (水箱间):** Located at elevations of 23.700 and 23.850.
 - Elevator Rooms (电梯机房):** Located at elevations of 23.700 and 23.850.
 - Staircases:** Labeled LT1, LT2, and LT3.
 - Other Rooms:** Labeled MF/ABC3, XI-1, XI-13, XI-14, XI-15, XI-16, and XI-10.
- Dimensions and Grids:** The plan includes detailed dimensions for grid intervals (e.g., 3100, 4200, 10800, 6200, 8100, 8400, 7750, 11380, 7800, 8400, 8100, 8100, 6000, 10800, 4200, 3300) and overall floor dimensions (39600 by 11000).
- Roof Details:** Three detailed insets at the top of the plan show the roof structure (屋面) with a 2% slope and an elevation of 26.400.
